

BEGIN CRUSADE ON IMMODESTY

Laxity in Morals, Dress and
Dancing Rouses Storm
In Great Britain.

MARRIAGE IS URGED

To Remain Single Is Nothing
Short of Crime, Says
Archbishop.

By LYDIA K. COMMANDER.
(Washington Herald-Cross Atlantic
Service. Special Cable Dispatches.)

London, June 19.—A storm of denunciation of laxity in morals, dress, dancing and other customs is sweeping England. It is the swing of the pendulum away from the reaction after the war. Church and state are setting their faces against licentiousness of any form or any customs which pave the way to immoral living.

Following the example of the American priest who turned a bridegroom as he thought immodestly from the altar, refusing to perform a marriage ceremony over her, Archbishop Melbourne denounces the present fashionable scanty attire of women as a menace to the morality of the nation.

"The church cannot condone the birth of one child out of wedlock," he continued, linking this as a result to woman's fashions. "Society must in the name of the church, crush this new rule by which the bringing into being of human life is made to approximate the morals of the farm yard."

"The first duty of men and women of marriageable age is to marry and rear children. To remain unmarried in the present is nothing short of a crime against the community."

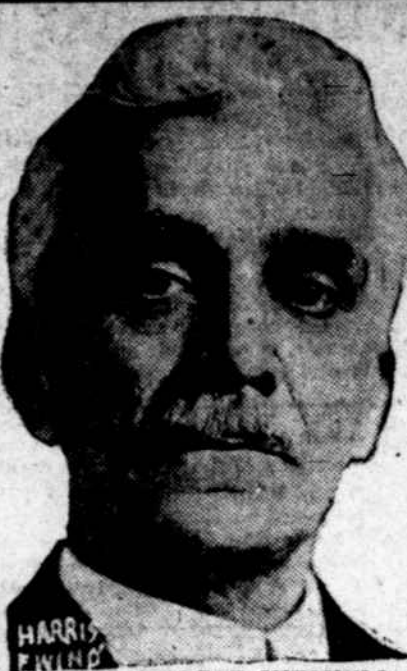

At the same time Alderman Hunter, of London, objects to the use of the municipal halls for boxing matches or dances on the grounds of their debasing influence on the morality of the community.

"An immoral atmosphere is created in any district by holding boxing contests," he declares. "The class of audience is most undesirable. Dancing of the type popular today must also lead to immorality. It is the duty of public bodies, such as the London Board of Aldermen, to take measures for the uplifting of their constituents and not to cater to influences that will debauch them."

G. A. R. to Meet in Indianapolis.
Columbus, O., June 19.—The G. A. R. national encampment will be held in Indianapolis starting September 12.

Birthday Greetings

CAPT. J. WALTER MITCHELL.
Veteran newspaper man, who has been an active writer for 52 years and is the oldest in point of service and years in the city, will today celebrate his sixty-fifth birthday. Capt. Mitchell will observe the anniversary of his natal day in the midst of his six children and ten grandchildren at the country home of his son, John A. Mitchell, near Rock Creek Park. He is the author of several books, and resides at 720 Thirtieth street northwest. He holds three commissions as captain.

BRITISH WOMEN SEEK PRETTY FOOT PRIZE

London, June 19.—A competition among English women to pick the one having the most beautiful feet was the feature of the Canadian Industries Exhibition today. The purpose of course was to call attention to Canadian made shoes, which follow American lasts rather than English.

"Americans say that English women are beautiful but have ugly feet," says C. H. Baker, the agent of the Canadian manufacturers. "The feet of the English women are as beautiful as those of the women of any nation. The whole trouble is their shoes are not properly fitted. The width of the shoe is the test of correct fitting in America and Canada, but in England only the length is considered."

Eastern Shore Memorial.

Pocomoke City, Md., June 19.—The Eastern Shore Memorial Association, which embraces the entire State of Delaware and the Eastern Shore of Maryland and Virginia, held its June meeting here. F. W. Davis, of Laurel, is president; J. W. Ellis, of Frankford, vice president; W. W. Simple, Jr., of Milford, secretary.

WATER 'BABIES' GET GIRLS' AID

"Learn to Swim Week" Begins
With Canvass of All
Pools in D. C.

The opening day of "Learn to Swim" week was held yesterday by the American Red Cross, Potomac Division, by making a canvass of all local swimming pools and bathing beaches.

Red Cross chapter chairmen throughout Maryland, Virginia and West Virginia and the District of Columbia have succeeded in obtaining the services of volunteer swimming instructors to further the movement, which is nationwide.

The girls of the Insular and Foreign Division of the Red Cross have organized a swimming club, known as the "Ariel Club," which will hold classes three times a week in the municipal pool at Seventeenth and D streets, where lessons will be given by the municipal instructor of the Public Health Service. In addition to being taught to swim, lessons in the most effective methods of first aid and life-saving will be given.

Mrs. Livingstone Farrand has been nominated honorary president of the club; Mrs. Helen B. White, captain; Miss Mae Murray, first lieutenant; and Miss Dorothy Thompson, second lieutenant. At present the club has twenty-two members.

WASHINGTON EATING DOUBLE HAM QUOTA

Despite steadily mounting prices, Washingtonians ate nearly twice as much ham and other hog products during May of this year as was eaten during the same month of 1919, according to figures made public yesterday by the Department of Agriculture.

Receipts of live hogs for local slaughter during May, 1920, totaled 3,581 as compared with 4,932 during May, 1919. The number of cattle, calves and sheep received here shows no appreciable increase over the receipts a year ago.

Urges Real Estate Courses.

Realtors have a fertile field for service open to them in the establishment in the universities of their respective States a course in real estate, said John L. Weaver, of Weaver Brothers, this city. Endowments yielding sufficient income to provide teachers for such a course would be an incomparable service.

Chosen on Pharmacy Board.

Dr. Charles B. Campbell, of 1731 Lamont street northwest, has been chosen by the District Commissioners as a member of the Board of Pharmacy to succeed Dr. Charles F. Fuhman, resigned. The appointment is for a three-year term.

Fire in His Pants, Man So Wild He Leaves His Booze

Dalton, Ga., June 19.—If you see a bootlegger with a red lantern "running like a house afire" stop him. He left 100 gallons of liquor here. Prohibition officers stretched a wire with a red lantern on it across the road near here, but the man dashed through it, the impact throwing the lantern into the driver's seat. When the oil ran into the seat of the bootlegger's pants, however, and he took to the woods—"going like a house afire," the officers reported. He did not come back.

PURE ENGLISH WANTED AT BIG SCHOOLS

The latest Oxford movement is an association of learned professors to encourage the campaign for the speaking and writing of pure English started by the poet laureate, Robert Bridges. It is supported by Thomas Hardy, the novelist, and Sir Walter Raleigh, professor of English literature at Oxford University, and other prominent men.

The exact objects of the society have not yet been announced, but it is understood that there will be lectures and publications in favor of the purity of the written and spoken language and against the incorporation of foreign words. An effort will be made to make polite speech consist of terse, vigorous English words instead of elaborate derived synonyms and inaccurate pronouns, which the poet laureate cited as a typical example of the manner in which the speech of educated English persons is being deplorably changed.

We are assisting this movement by means of the New Universities Dictionary, which we are now offering to our readers at small cost. It contains 40,000 words with their pronunciation and definition. Its distribution is ending this week, because no more books can be obtained. Your chance of getting a copy will soon be gone. Read and clip the coupon and secure one of the remaining copies of this fine book.

Union Teachers Plan Campaign.

Plans for a nation-wide publicity campaign to increase teachers' salaries throughout the country were begun at a recent meeting of union teachers of Washington public schools. It is planned to wage the campaign among voters of the country in order that a Congressional body may be elected which will be favorable to the salary increases. Expenses of the campaign are being collected among local union members.

D. C. VOTE BILL TO BE PUSHED

Local Men Drafting Bills for
December Session of
Congress.

Bills providing for self-government in Washington will be introduced the first day of the December session of Congress, it was announced yesterday by Col. Winfield Jones, chairman of the National Press Committee for District suffrage. The measures are now being drafted by Robert L. Miller, member of the advisory council; Alvin L. Newmyer, chairman of the speakers' committee; and Louis L. Gottlieb, executive secretary.

According to the plan now being worked out, Washington will have a board of seven commissioners, six to be elected by the people, and an engineer commissioner to be appointed by the President. Two delegates to represent the District in Congress will be provided. A public utilities commission of seven and a board of education of nine will also be included in the bills.

HOSPITAL FUND BUT A THIRD SUBSCRIBED

The campaign committee of the Casualty Hospital fund announced yesterday that but one-third of the goal of \$75,000, has been realized to date. The drive ends July 1. A lawn fete and bazaar will be held on the grounds of the hospital June 25 and 26, from 7 to 11 p. m. Dr. William P. Reeves, chairman of the committee on arrangements, expects to make this celebration the leading event of the drive.

OFFENSIVE OF REDS HALTED BY POLES

London, June 19.—Bolshevik forces have begun a new cavalry offensive about thirty miles west of Kiev, but the Polish defense has prevented much progress, according to news dispatches today.

A Warsaw dispatch says the Poles evacuated Kiev. A Moscow wireless had previously said the Poles destroyed the Vladimir Cathedral. A Polish communiqué today said the Red armies were setting fire to towns as fast as they were taken.

University Councillors Named.

The Rev. Dr. Herbert P. Randolph, pastor of Foundry M. E. Church; N. L. Burchell, Corcoran Thom, and Newbold Noyes have been appointed councillors of George Washington University and have accepted, according to announcement last night by President William Miller Collier.

AGED INDIAN IS FREED

BARTOLO PRIETO.

Bartolo Prieto is back home. Out on the little ranch sixty miles from San Diego, Cal., that was his before the white men led him away to serve thirteen years in San Quentin Prison, his daughter, Annie, since married, greeted him lovingly and tried to make him feel that the long years of work in the jail were only a dream.

But he is still dazed, and wonders what it was all about, as he strokes the cheeks of his four grandsons he never saw before.

Bartolo is a full-blooded Indian and is 82 years old. Thirteen years ago he quarreled, and after the manner of his tribe, shot his man. He was given sixteen years, but his conduct was so gentle that Warden Johnstone consented to his parole.

When he left the prison gate, alone, he carried with him a California poppy he had raised in his tiny garden outside his cell, and about his neck he wore a silk handkerchief which Annie embroidered for him, to wear on the happy day of his release.

NURSE TWO YEARS ON RETURN TO D. C.

After two years of active nursing service in the war-stricken zones of France and Rumania, Miss Allie McNeill, of 124 W street northwest, is returning to Washington, according to notification received by the Potomac Division of the American Red Cross.

Miss McNeill is returning to the United States on the S. S. Canada, and is due to arrive in New York about June 22. She has been overseas since August 8, 1918.

Oil Can Plugged With Spud No More —It's Gumdrops Now

Columbus, Ind., June 19.—This city is first to recognize the power and influence of the nouveau riche potato. Grocers no longer plug up the spouts of oil cans with spuds—they use gumdrops.

A customer was about to help himself to a potato after having a gallon can of oil filled, when the grocer stopped him. "Don't do that! Don't do it!" he exclaimed. "Take this gumdrop. Candy is cheaper."

New Store Erected At Bathing Beach To "Check" Change

You can get your change checked now. That is if you have the change to check. Down at the Tidal Basin there's a store on the sand. The new bathing beach store is for bathers exclusively.

There are few if any pockets in the bathing suits these days. So if the bather comes out of the bathing house with a quarter or a half-dollar and makes a purchase at the "beach store" and has change left, it is just checked. Then when the bather comes out of the water he goes and gets his change and then changes, and then goes home. Simple enough, isn't it? Sort of like a double-play in baseball.

Big Polish Loan "Going Over."

The \$50,000,000 loan being floated in the United States by the Polish government for the rehabilitation of Poland will go "over the top," the committee in charge announced last night. It closes July 5.

According to Prince Lubomirski, Polish Minister, the money will be spent in the United States for chemicals, copper and similar products, besides cotton, wool and foodstuffs.

HOLD FAST TO HEALTH With The Mighty Strength-Giving Power of NUXATED IRON

Nothing slips away so easily as HEALTH. Unless YOU hold fast to HEALTH by your own efforts—by keeping your blood pure, red and rich in iron—the day may come when all you can do is to WISH you had acted sooner. Nuxated Iron helps strengthen the nerves, restore wasted tissue and build red blood, strength and endurance. Over four million people use it annually. At all druggists.
